I am a dedicated Web Designer with a strong foundation in front-end development, skilled in creating visually appealing and user-friendly websites. With a keen eye for UI/UX design, I am passionate about translating complex concepts into intuitive and effective digital experiences. I am eager to contribute to a dynamic team where I can leverage my skills in Figma, HTML, CSS, and JavaScript to develop high-quality products and services.

### Internship

#### ● MearnStack Developer

July 2023 - Jan 2024

- I completed an online course in **MEAN stack development** at **Luminar Technolab cochin**, focusing primarily on front-end aspects using JavaScript.
- This course enhanced my skills in building dynamic and responsive user interfaces, giving me a solid foundation in creating engaging web experiences.
- Through hands-on projects, I developed my ability to design and implement intuitive and effective front-end solutions.

#### ● UI/UX design

May 2024 - Present

- I am currently pursuing an online course in **UI/UX design** in **Internshala**, where I am building my foundational knowledge in user-centered design principles.
- I have developed skills in creating wireframes and designing landing pages, focusing on intuitive and visually appealing interfaces.
- Through ongoing projects, I am enhancing my ability to craft designs that improve user experience and align with business goals.
